About me

I am a determined and creative individual with a passion for exploring new things, particularly in the fields of coding and web application development. I possess strong leadership qualities and believe that every team member's opinion is crucial for collective growth. Beyond my professional life, I enjoy dancing, playing the guitar, cooking, and traveling, which allow me to express my creativity and stay balanced.

Experience

Internship

Lionsbot India Pvt Ltd

June - July 2024

I have gained hands-on experience in version control by learning Git and GitHub, and I successfully built an application using Oracle APEX. Additionally, I delivered a presentation on my project, which enhanced my communication skills, and I deepened my understanding of business operations by learning about the functionality of the company.
